

## React

### 10. ReactJS-HOL

#### Step 1: Creating the Office Space Rental React Application

The screenshot shows the Visual Studio Code interface with the terminal panel open. The terminal displays the output of the command `npm create-react-app officespacerentalapp`. The output indicates that a new React app is being created in `C:\Users\srahy\officespacerentalapp`, and packages are being installed. The terminal also shows the installation of 1294 packages in 2m and 271 packages looking for funding, with a prompt to run `npm fund` for details.

```
Microsoft Windows [Version 10.0.26200.8894]
(c) Microsoft Corporation. All rights reserved.

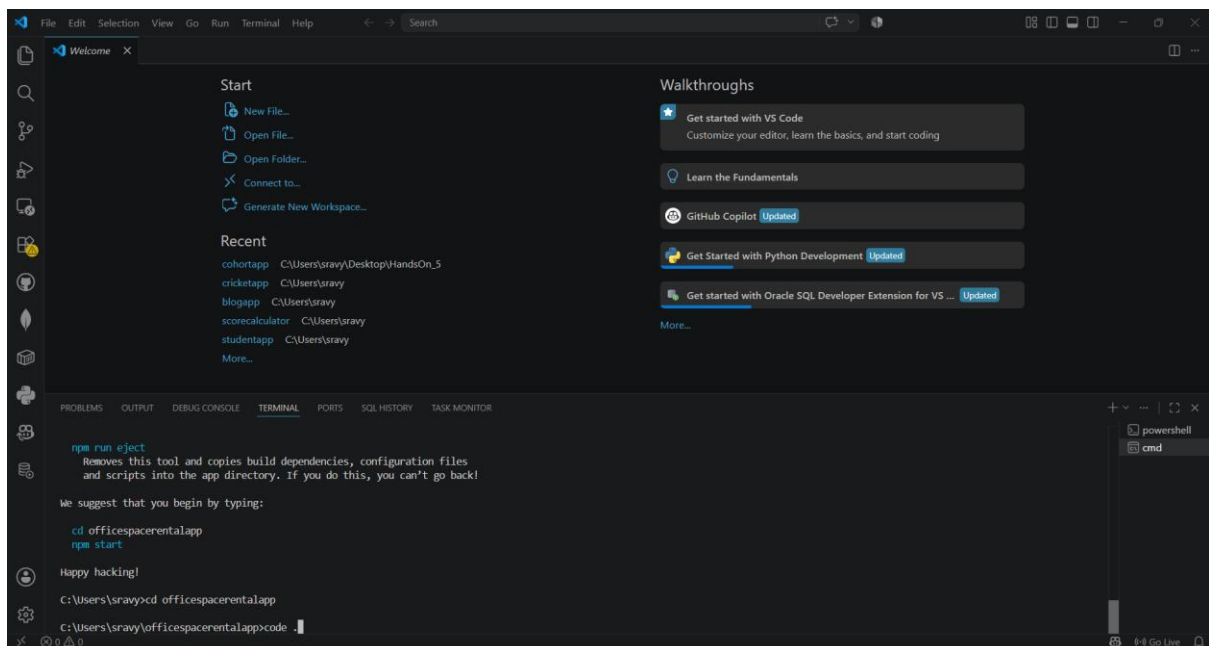

C:\Users\srahy>npm create-react-app officespacerentalapp

Creating a new React app in C:\Users\srahy\officespacerentalapp.

Installing packages. This might take a couple of minutes.
Installing react, react-dom, and react-scripts with cra-template...

added 1294 packages in 2m

271 packages are looking for funding
  run `npm fund` for details
```

The screenshot shows the Visual Studio Code interface with the terminal panel open. The terminal displays the output of the command `npm run eject`, which removes the tool and copies build dependencies, configuration files, and scripts into the app directory. The terminal also shows the command `cd officespacerentalapp` and `npm start`, followed by the prompt `Happy hacking!` and the command `C:\Users\srahy>cd officespacerentalapp` and `C:\Users\srahy\officespacerentalapp>code`.

```
npm run eject
Removes this tool and copies build dependencies, configuration files
and scripts into the app directory. If you do this, you can't go back!

We suggest that you begin by typing:

  cd officespacerentalapp
  npm start

Happy hacking!

C:\Users\srahy>cd officespacerentalapp
C:\Users\srahy\officespacerentalapp>code
```

## Step 2: Creating the Office Space Data in App.js

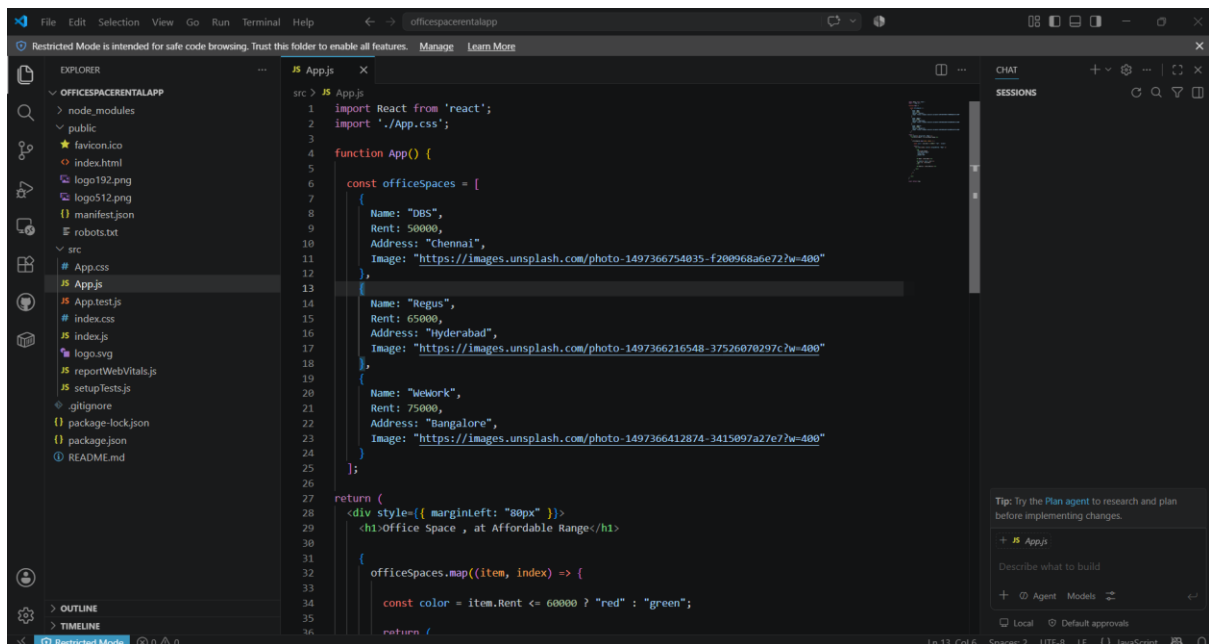

The screenshot shows the VS Code editor with the 'App.js' file open. The file contains the following code:

```
1 import React from 'react';
2 import './App.css';
3
4 function App() {
5
6   const officeSpaces = [
7     {
8       Name: "DBS",
9       Rent: 50000,
10      Address: "Chennai",
11      Image: "https://images.unsplash.com/photo-1497366754035-f200968a6e72?w=400"
12    },
13    {
14      Name: "Regus",
15      Rent: 65000,
16      Address: "Hyderabad",
17      Image: "https://images.unsplash.com/photo-1497366216548-37526070297c?w=400"
18    },
19    {
20      Name: "WeWork",
21      Rent: 75000,
22      Address: "Bangalore",
23      Image: "https://images.unsplash.com/photo-1497366412874-3415097a27e7?w=400"
24    }
25  ];
26
27  return (
28    <div>
29
30    </div>
31  );
32
33
34  export default App;
```

The Explorer panel on the left shows the project structure for 'OFFICESPACERENTALAPP'. The Chat panel on the right is empty.

## Step 3: Display the Heading and Office Space Details

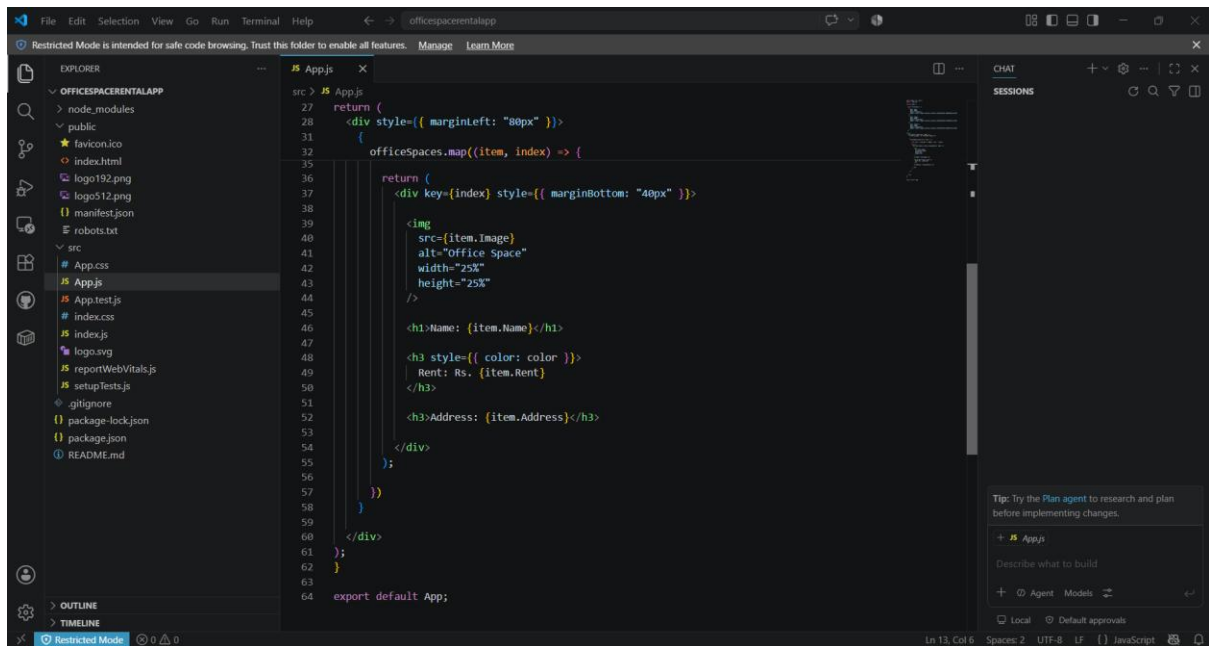

The screenshot shows the VS Code editor with the 'App.js' file open. The file contains the following code:

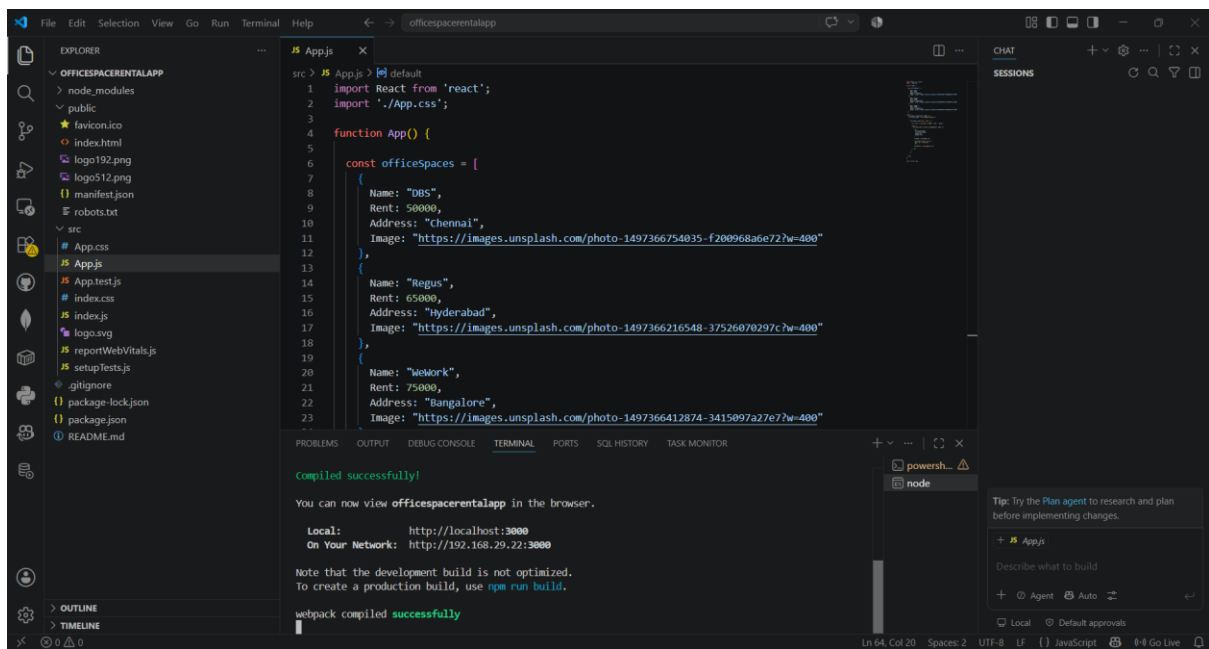

```
1 import React from 'react';
2 import './App.css';
3
4 function App() {
5
6   const officeSpaces = [
7     {
8       Name: "DBS",
9       Rent: 50000,
10      Address: "Chennai",
11      Image: "https://images.unsplash.com/photo-1497366754035-f200968a6e72?w=400"
12    },
13    {
14      Name: "Regus",
15      Rent: 65000,
16      Address: "Hyderabad",
17      Image: "https://images.unsplash.com/photo-1497366216548-37526070297c?w=400"
18    },
19    {
20      Name: "WeWork",
21      Rent: 75000,
22      Address: "Bangalore",
23      Image: "https://images.unsplash.com/photo-1497366412874-3415097a27e7?w=400"
24    }
25  ];
26
27  return (
28    <div style={{ marginLeft: "80px" }}>
29      <h1>Office Space , at Affordable Range</h1>
30
31      {
32        officeSpaces.map((item, index) => {
33
34          const color = item.Rent <= 60000 ? "red" : "green";
35
36          return (
```

The Explorer panel on the left shows the project structure for 'OFFICESPACERENTALAPP'. The Chat panel on the right is empty.
